Plantation of tree – protecting them – rains – no water problems – adoption of 20 trees by one person – green earth – happy earth – quality life.

18. Read the following passage and make notes. Add a suitable title. $1 \times 4 = 4$

You can do well in your exams if you are disciplined and methodical in the way you approach your studies. Follow your class lessons properly to cover your syllabus in a systematic manner. After coming home, revise whatever is taught in the class, as the topics will be still fresh in mind. Try and solve the questions at the end of each topic and also the last five years papers. If you are stuck, make sure you have it resolved by the next day at the maximum.

Do not hesitate to take help from teachers and seniors, as needed. Note down important notes and formulae that you came across during your studies. This will help before the exams as you can just grab the subject notebook and revise the portions you want. Revise the points as and when you get time.

Chalk out a time table for board exam preparation and allocate ample time for each subject. Choose the time that you think is best for study. It can be early in the morning or late at night. Do not allow distractions to mark your studies. Home your strengths but do not ignore your weaknesses. Do not study anything new or from a new book right before exams, as you may get confused. Revise what you have studied and glance at important notes and formulae. Make a weekly revision plan. Eat healthy and take ample rest. Make sure you are also spending some time playing and re-energizing yourself.

19. Mark the stress for any EIGHT of the following words. $8 \times \frac{1}{2} = 4$

i) centre ii) answer iii) economic iv) today v) incident
vi) dispute viii) librarian viii) emission ix) curiosity x) because
